 @kolyates94

WORK EXPERIENCES

Fullstack developer

May 2022 - November 2025

- Engineered a TikTok analytics web app from scratch using React and Laravel, leading to a **15% increase in user engagement** by providing actionable content insights.
- Slashed initial page load time by **40%** by implementing React lazy loading and code splitting, significantly improving user experience.

Back-end php developer

July 2019 - February 2022

- Developed and integrated payment gateways (Stripe, Portmone), automating billing processes and reducing manual work **by 5 hours per week**.
- Led the migration from Laravel 8 to Laravel 9/10, enhancing security, performance, and code maintainability.

Engineer - technologist

November 2017 - 2019 June

- design and improve the construction of cables and wires
- write and develop the technology for making cables
